

NSTAT ESD CONTROL

1-866-51-NSTAT (67828)

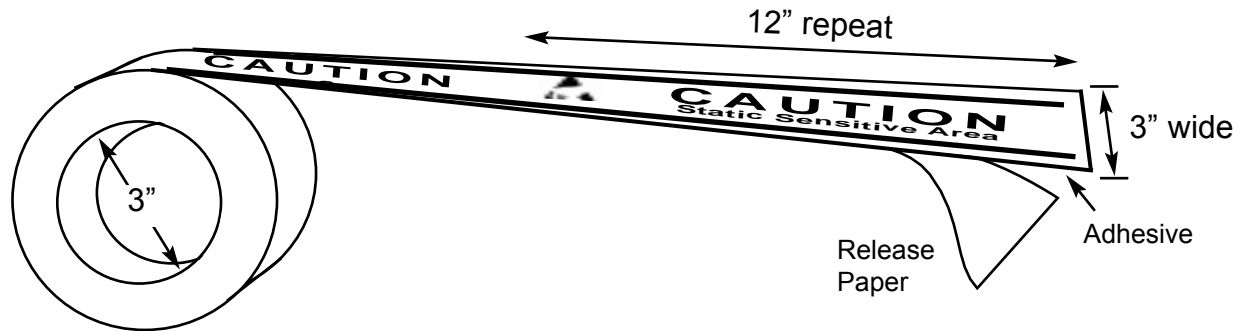

Aisle Marking Tape

Protect your products by notifying staff and visitors that static control precautions are needed. ESD Aisle Marking Tape allows you to establish the areas requiring static protective measures. Apply the tape to floors, walls, tote boxes, or to any area containing static sensitive parts. As part of ISO9000, many companies have implemented ESD control programs that reference the standards ESD 20.20, EIA 625, or MIL-HDBK-263. These standards require that work areas for static sensitive items be designated. This 6 mil, scuff-resistant tape features the ESD Warning Symbol and message. Bright yellow background makes the black text easy to read. Rolls are 3 inches wide and 54 feet long on a 3 inch core.

Specifications

Tape: PVC
Width: 3 inches
Color: Black on Yellow
Roll Length: 54 feet
